SUMMARY

Frontend Developer passionate about languages, communications and appetite for new things
Excellent verbal and written communicator with strong background cultivating positive relationships and exceeding goals.
Transitioned to coding because I found myself finding ways to build my own projects. Currently working on improving my React skills and in my free time learning Russian.

TECHNICAL SKILLS

Programming Languages: JavaScript(ES6) **Front-End:** React.js,, Bootstrap, HTML5, CSS3
Back-End: PostgreSQL, Node.js **Software:** Heroku, Netlify, Git, Github,Google Docs, MS
